◆ UCF REPORT

Volume 12, Number 1

For Faculty and Staff

July 12, 1989

Dr. Phillips gives \$350,000 for UCF business institute

155 add up 1490 years UCF service

One hundred and fifty-five employees will be recognized for one thousand four hundred and ninety years of collective service to the University at the annual USPS Awards Banquet.

The celebration will take place at the University Dining Room on Friday, July 14, beginning at 7 p.m. Doors open at 6:30.

After two years at the Holiday Inn-University, the party was brought back to campus. "We couldn't beat the \$8.50 price, or come anywhere near it anywhere else," Gladys Yost, banquet chair, said.

Admission includes a full meal buffet, entree of baked chicken or lasagna, beverage and dessert. All the awardees and spouses will attend free, as guests of the Staff Council.

This year staff employees get two presidents to help confer the honors on long-term employees. Both the new president, Steven Altman, and the just-retired president, Trevor Colbourn, have accepted invitations.

USPS employees, all vocalists, Jamey Walker, Karen Nguyen and Hessie Jones, will entertain. Jackie Goigel, UCF graduate student and a member of the Florida Board of Regents, will supply comments.

Irene LeBlanc, who chaired the Employee of the Month committee, will announce the one chosen for Employee of the Year.

Barbara Pope, Staff Council chair for 1988-89, will give the welcoming address and make the introductions. John F. Butler, associate professor of communication and University teacher of the year for 1988, will be the master of ceremonies. The Reverend Willis Perkins, Physical Plant employee, will ask the invocation.

The 1989-90 Staff Council officers will be installed near the end of the 17th annual awards banquet.

Airplane ad features Wayne, Ann Densch

Friends of UCF, Wayne and Ann Densch, are featured in Beechcraft ads currently running half page in the Wall Street Journal.

They are pictured with company executives taking delivery on the first Starship, an executive airplane of new design.

The Denschs gave one million dollars to a trust fund that pays UCF's Athletics Department \$100,000 a year for 10 years. They also contributed prizes and cash for the annual sports fund raiser that started as the Gate Crasher, and has been renamed the Night of Knights.

The complex built for intercollegiate athletics was dedicated in 1986 as the Wayne Densch Sports Center.

If you cannot lift the load off another's back, do not walk away. Try to lighten it.

—Frank Tyger

Gift for business

It was a first for UCF President Steven Altman (seated, right) getting pictured two days after assuming office, receiving a check from someone in the community to finance research that will benefit UCF students and the community. Gene Johnson (also seated), president and chairman of the board of the Howard Phillips Fund, Inc., is shown in the act of presenting a \$350,000 check for special study by the College of Business Administration. Standing, from left, Professor David Scott, who will direct the study; Jim Hinson, executive vice president of the Howard Phillips Fund, and Clifford Eubanks, dean of the College of Business Administration.

President Steven Altman started his job at UCF by receiving a key from the man he replaced, Trevor Colbourn, in the presence of television, radio and newspaper reporters. "I'm looking forward to building an even better university," Altman told Scott Hanson, Channel 2's man with the microphone. "We are going to have a busy time, an eventful time, one of more growth and more development for the University and we are very much looking forward to getting it started."

First day

Researchers at UCF soon will be looking at trends, policies and issues that affect American business as working members of an institute established with funding from a longtime benefactor.

The new organization, to be known as the Dr. Phillips Institute for the Study of American Business Activity, is supported by \$350,000 from the Howard Phillips Fund, Inc.

James A. Hinson, executive vice president of the fund, at the presentation, noted the gift will provide a permanent endowment to operate the Institute.

An additional \$100,000 in state matching funds is anticipated, said Dr. David F. Scott, holder of the Phillips-Schenck Chair in American Private Enterprise, who also will direct the new organization.

"The purpose of the Institute will be to serve as a focal point for broad-based research on policies, issues, trends and questions that affect the behavior of commerce in our society," said Hinson.

Scott expanded by noting that business decision-making, business conditions, the role of governments in affecting those conditions, business risk-taking and strategy formulation are all part of the Institute's research thrust.

Several UCF College of Business Administration faculty will work within the Institute and be accessible to report on their particular areas of expertise.

"It is intended that the Institute become a major disseminator of policy and business conditions analyses of the state and nation," said Scott. He added that a planned quarterly publication will deal with economic and business matters of importance to the Central Florida community and relate national economic matters to the local scene.

"This is a wonderful opportunity to apply our faculty expertise in a positive manner for the benefit of many," said Business Administration Dean Clifford Eubanks.

Grant Opportunities

"FIELD READERS" (DEPARTMENT OF EDUCATION) - The Office of Postsecondary Education is soliciting invitations for applicants to serve as field readers for several separate discretionary programs. Among the different program titles are: Business and international education program, International research and studies program, National resource centers and foreign language and area studies fellowships programs, Fulbright-Hays programs, Undergraduate International studies and foreign language program, Educational opportunity center program, Law school clinical experience program, Minority science improvement program, Strengthening institutions program, Cooperative education program, Student literacy corps program, and Graduate assistance in areas of national need program. Applications are especially encouraged from minorities and women. Due date as soon as possible.

"APPLIED RESEARCH GRANTS PROGRAM" (HIGH TECHNOLOGY AND INDUSTRY COUNCIL) - The council is soliciting proposals for research in the areas of: 1) Biomedical Devices and Technology, 2) Biotechnology, 3) Computer Integrated Engineering and Manufacturing, 4) Electro-Optics and Lightwave Technology, 5) Microelectronics and Materials, 6) Simulation and Training, 7) Software and Computer Science. Due Date Sep. 8, 1989.

"UNIVERSITY RESEARCH INITIATIVE RESEARCH INITIATION PROGRAM" (DEPARTMENT OF DEFENSE) - THE ARMY RESEARCH OFFICE is seeking proposals in the area of smart materials and structures. Research areas to be promoted under this initiative include aspects of materials science, electronics, biosystems, earth sciences, and mathematical modeling.

THE OFFICE OF NAVAL RESEARCH is soliciting proposals for research on coordination in hierarchical team decision making. Particular interest is in the identification and characterization of variables that enhance coordination and enables teams to maintain coordinated action under stress conditions characteristic of tactical environments.

ENVIRONMENTAL BIOLOGY PROJECTS can include broad range of research in risk assessment, ecosystem structure and function, toxicology, biotechnology and degradation processes. Due Date Sept. 16, 1989.

THE AIR FORCE OFFICE OF SCIENTIFIC RESEARCH is seeking proposals in the microstructural design, processing, and characterization of materials. Of concern are the fundamental mechanisms controlling the microstructural (including nanostructural) bases for the mechanical, electronic, and optical properties of polymers, ceramics, glasses, composites, and metals.

THE DEFENSE ADVANCED RESEARCH PROJECTS AGENCY is soliciting proposals in applied mathematics, specially in the area of wavelets and their applications. Applications to fractals, the fractal measure of noise, partial differential equations and signal processing of speech and images are of special interest. Due date Sep. 14, 1989.

THEORY AND DATA ANALYSIS (NASA) - This NASA research announcement solicits basic research proposals for theory and data analysis relating to the Upper Atmosphere Research Program in the Earth Science and Applications Division. Due date Aug. 31, 1989.

For further information please call Grants Development at 275-2671.

Official Memoranda

Publication of these memoranda and announcements about University policy and procedure constitutes official notice to faculty and staff

To: All Employees
From: John R. Bolte, Vice President
for Administration and Finance
Subject: Campus-wide Hot Water Shutdown

During the period Aug. 10-20 the Utility Plant system that provides hot water throughout the campus must be shut down for removal of asbestos material. This means there will be no hot water available, except in those buildings that have independent systems. If this contemplated shut down will cause a severe problem, please notify the project manager, G. R. Shahnami, Physical Plant, x2471, or Hugh Ivie, director of Environmental Health and Safety, x5323. Notification should be given to the above individuals no later than July 15, if any significant problem is anticipated.

To: All Departments
From: Jack Winstead, Director
Division of Purchasing
Subject: Annual Contract for Bulk Mail

The UCF invitation to bid No. 9195KCSA for bulk mail service has been renewed to:
Mail Unlimited, Inc.
2954 Forsyth Road
Winter Park, FL 32792

for use by all campus departments for Fiscal Year 89-90 (July 1, 1989 through June 30, 1990). All acquisitions for these services shall be made under the terms, prices and conditions set forth in this notice.

Vendor contact: Richard A. Broennele, President, 657-9333. Performance time: Work will start within one (1) day and be delivered by two (2) days ARO.

Shipping terms: Not applicable.

Payment terms: Net 30.

Minimum job charge - \$50.

All questions concerning this contract should be directed to the Purchasing Division, 360 Administration Building.

x2001.

To: All Full-Time Employees
From: Ina L. Carpenter, Manager
Parking and Traffic Office
Subject: Vehicle Registration by Mail

AVOID THE LONG LINES!! GET YOUR DECAL BY MAIL!!

Commencing July 10, the Parking and Traffic Office has been mailing to your home address information needed to purchase your 1989-90 parking permit by mail.

To insure receipt of your permit prior to the beginning of the Fall Semester, please complete the vehicle registration form and return it along with a copy of your State of Florida vehicle registration certificate to the Parking and Traffic Office no later than Friday, Aug. 4. Requests for parking permits by mail will not be processed without the appropriate documents and correct payment.

The fee schedule is as follows: (Sales tax is included)

Semesters	3	2	1
Reserved (A decals)	\$120	\$96	\$48.00
Faculty/A&P/Eligible	\$ 36	\$29	\$14.50
USPS Staff (B Decals)			
USPS Staff (C Decals)	\$ 21	\$17	\$ 8.50
Motorcycle	\$ 12	\$10	\$ 5.00

You may pay the appropriate amount by check or money order made payable to UCF/Parking and Traffic. Or you may choose to have the amount of your parking permit deducted from your paycheck. Payroll deduction authorization forms will be provided.

Those who require handicapped parking permits must provide current eligibility documentation.

The 1989-90 parking permits will be available in the Parking and Traffic Office Aug. 15, 1989, for individuals not desiring to take advantage of the mail registration procedure. There will be no secondary registration sites for parking permits.

Should you require additional information or assistance, please contact the Parking and Traffic Office, x5812.

Raymond A. Shapek (chair/Public Service Administration) has been elected president of the Central Florida Chapter of the American Society for Public Administration.

Roberta M. Driscoll (Counselor Education Program) was one of 60 selected for special training in assessment and evaluation of gerontological counselor knowledge and skills by the American Association for Counseling and Development Aging Project at Chicago in June.

Michael Bass (vice president for Research) has been elected a member-at-large of the board of directors of the Optical Society of America for a 1989-92 term. He will serve as general chairman of the 1989 Optical Society of America annual meeting to be held in Orlando in October. Bass also gave an invited talk at the American Institute of Aeronautics and Astronautics 20th Fluid Dynamics, Plasma Dynamics and Lasers Conference in Buffalo, NY, in mid-June. His subject was "Laser Materials Interactions."

Kenneth J. Kazmerski (chair/Social Work) has been elected to the board of directors of the Council on Social Work Education, the national accrediting body. He will serve a three-year term.

Pete Fisher and Ellen Bolves (Counseling and Testing) presented a two-day workshop in Ericksonian Approaches to Hypnosis to the juvenile welfare board of Pinellas County, May 15-16. Dr. Fisher also presented a one-day workshop on Ericksonian Hypnosis to the Florida Association of Professional Hypnotists in Plant City on June 17.

Donald Malocha and Madjid Belkerdid (Electrical Engineering) presented a paper titled, "Quartz Crystal Resonator Model Measurement and Sensitivity Analysis" at the 43rd annual Frequency Control Symposium in Denver, May 30 - June 4. The paper was co-authored with a graduate student, **Karen Park**.

Yacoub A. Alsaka (Electrical Engineering) presented a paper titled, "High Risk Voices of Atrocity: Diagnosis, Prevention and Treatment," at the 18th annual Symposium on Care of Professional Voice, in Philadelphia June 3-7.

Roberta Driscoll (Counselor Education Program) was given the Counselor Educator of the Year award by the Volusia Association for Counseling and Development on May 11. In March she had a workshop presentation on "Training Standards for Mental Health Counselors With a Specialty in Marriage/Couples and Family Counseling" at the national conference of the American Association for Counseling and Development, held in Boston.

John Schell (English) presented a course titled "Romantics and Revolutionaries" at the Canterbury Elderhostel in March.

Gary Whitehouse, Robert Kersten and D. H. Nicholas (College of Engineering) attended the 1989 American Society for Engineering Education annual conference, held in Lincoln, NE, June 25-29.

Welcome newcomers!

Karen Hankins (program specialist/Student Center) was formerly a program coordinator at East Tennessee State University where she earned both her bachelor's and her master's degrees. Originally from Abingdon, VA, she now lives at Orlando with her husband, Charles III, and their two-year-old daughter, Kimberley Ann. Her hobbies include reading, writing, skiing and fishing.

Ralph Ortiz (police officer/Campus Police Department) came from the Naval Training Center where he was an investigations officer. A native of Brooklyn, he now calls Orlando home.

Karl T. Dorrell (assistant football coach/Athletics) is on leave of absence from the UCLA graduate school of education. He earned a BA in psychology with a minor in business administration at UCLA. He worked in the athletic department and last year was a graduate assistant football coach. He comes from a family where four brothers had names beginning with "K" and three sisters had names beginning with "D". Golfing, fishing, camping and basketball are some of his interests. He now lives at Oviedo.

Dana A. Martin (trainer/Athletics) is a Boston native who changed address to Chuluota after attending FSU and working at UCF. He has a professional and hobby interest in weights. His wife's name is Theresa and they have a son, Marcus, 4.

Jean A. Paterson (coordinator/Cooperative Education Office) came from Dayton, OH, and attended Wright State University to earn a BA in political science. She was formerly a recruitment coordinator for the placement office at WSU. Her home is in Winter Park and her hobbies are crafts, reading, hiking, travel and history.

Music workshop set for teachers

"Teaching Music in the Classroom..... The Elementary Years" is the theme of a UCF College of Education workshop scheduled to be held on campus Aug. 7-11.

The workshop organizer, Mary Palmer, said the course will emphasize a comprehensive approach to the stimulating and sequential study of music in grades K-6. Graduate and undergraduate credits are available.

For more information call Extended Studies x2123.

The art of taxation is to pluck the most feathers from the goose with the least amount of hissing.

Chinese businessman's gift assures international student center for UCF

The gift of \$250,000 by a Chinese-American philanthropist will enable construction of a center at UCF to serve the school's 400 foreign students and promote international education on campus and in the community.

In an announcement today at UCF, Nelson Ying noted his gift represented "recognition of the importance of international education in today's world. The UCF center will benefit students from around the world who will utilize their knowledge in the sciences, industry and commerce."

Ying is president of China Group, the organization that operates the China Pavilion at EPCOT, and such other activities as Great China International Tours, New York, and China Land in New York and

Florida.

A matching quarter million dollars will be sought from the 1990 Legislature to permit construction on the center to begin later that year. The new building, to be named the Dr. Nelson Ying International Center, will be located adjacent to the Business and Professional Women's Scholarship House on the UCF campus.

The international student center will be used for counseling, advising and developing cross-cultural programming for both the University and the community. It will become the focal point for concentrating faculty interest in international programming and providing linkages with community groups interested in assisting international students. It also will serve

as limited emergency housing for international students in search of permanent quarters.

The idea of a center developed in connection with the formation of UCF's Center for International Education two years ago. The prospects of a center were bolstered significantly shortly thereafter, when the First Presbyterian Church of Orlando provided a lead gift of \$20,000. During the recent spring term, some 410 international students were registered at UCF. India provides the largest number of international students (33) followed by China (27). Those numbers are likely to increase considerably as new academic programs become available, said former UCF President Trevor Colbourn.

UCF currently offers programs in Canadian, Russian and Judaic Studies. There also are study abroad summer programs in France, Italy and Spain. Plans call for increased emphasis on programs in international business and politics that expose American students to a cross-cultural awareness to allow a view of the world from perspectives other than their own, said Dr. Anthony Cervone, who was appointed as the first director of the Center for International Education.

A Center for Multilingual-Multicultural Studies, also established in 1987, offers English as a Second Language program and short term language immersion programs for international students, whether enrolled at UCF or not.

Just as vital to international education in the area served by UCF is the spin-off effected by some 300 locally based businesses that have a stake in international markets.

"We believe that all educated Americans must be familiar with cultures and civilizations beyond their own immediate experience. The strength of our economy and national security depend in large measure upon our ability to deal intelligently with peoples in nations around the world. We must insure that our students have a meaningful exposure to an international education," Cervone said.

A world view

Before he left office, former president Trevor Colbourn was pleased to join Chinese businessman Nelson Ying (right) in announcing that an international student center would be built on the UCF campus, thanks to Ying's generosity. The artist's conception is seen between them.

Welcome Newcomers!

Jorge Cadiz (research associate/IST) earned his BS in engineering from UCF and worked for the institute while going to school. He was born at Aguadilla, Puerto Rico, and now lives at Orlando. For hobbies he likes cycling and racquetball.

Gary W. Winkler (research associate/Sponsored Research) worked last for the AAI Corp. Born at Jacksonville, he attended Auburn University. He lives at Orlando and likes art, drawing, and related skills for his outside interests.

Kimberley Johnson (coordinator/Martin student work program) is a Denver native who now calls Winter Park her home. She earned a BA in business administration at Fort Lewis College, Durango, CO. She worked last for Personnel One. Away from work she likes swimming, bicycle riding and reading.

William J. Bramble (research coordinator/IST) comes from Juneau, Alaska, where he worked for the Southeast Regional Resource Center, and prior to that, the Alaska Dept. of Education. A native of Beloit, WI, he earned a bachelor's degree in psychology at the University of Kentucky, and his master's and doctorate at the University of Chicago. He has a teenaged son, William Jr., and they now live at Winter Park. Fishing and hunting are his hobbies.

Agnes Testa (secretary specialist/Engineering) is a native of Brooklyn and worked for Stony Brook University in New York before moving to Florida. She has lived at Lake Mary for the past two years and has two children, Dennis, 19; and Sina, 14. Bowling, traveling and meeting people are her hobbies.

John J. Horne Jr. (fiscal assistant II/F&A) was formerly a corporate accounting supervisor at American Pioneer Savings. A native of Macon, GA, he earned a BA at Orlando College. He and wife, Margaret, live at Orlando and have three grown sons, Alan, Michael and Kevin. His hobbies include boating, skiing, birdwatching and nature.

Melynda Atwood (clerk typist specialist/Undergraduate Admissions) previously worked for a doctor and Orlando General Hospital. She attends Valencia East and lives at Orlando. The Beatles and John Lennon are her special interest. Kansas City, MO is where she was born.

Nina A. Shurdom (financial aid specialist/Financial Aid) was born in Amman-Jordan and last worked for Saint Leo College in Florida. She now lives at Winter Park and enjoys scuba diving and swimming. She earned two degrees from the University of Miami, a BA and MS in education.

High bids put doubt on when Alafaya unjams

The low of four bids opened June 28 for six laning Alafaya Trail came in 13 percent higher than the official Florida Department of Transportation estimate.

Whether to go forward with the high price in a year when road-building is in a dollar pinch, or whether to rebid, is being decided at this time in bid reviews at the DeLand district, and Tallahassee state levels, said Barry Fleming, DOT district office engineer.

J. B. Coxwell Contracting of Jacksonville was the apparent low bidder on the 2.3 mile long project at \$7,748,000.

Hubbard of Orlando was second at \$7,884,000, followed by Danis and Anderson, who were much higher.

For the first 21 years of its existence, all traffic entering the campus had to ride on, or at least cross, the heavily-traveled Alafaya. Before the state could get around to fourlaning the road, the traffic count had justified six lanes, which, once built, will make it look like University Boulevard that enters the campus from the west.

The plans, as they went to bid, would provide six lanes from Highway 50 on the south to just north of Centaurus Drive, the present northernmost entrance to the campus. There would be boulevard lighting, walks, bicycle paths in the outer lanes on both sides and a planted median.

Should DOT elect to go forward with the present low bid, the steps required would take until the end of September before construction could start, Fleming said.

Employment Opportunities

UCF is an Equal Opportunity/
Affirmative Action Employer

For resume of current openings, call
Career Opportunity Line, 275-2778

For detailed information about any position and how to qualify, phone x2771 or ask at the Personnel Office in the Administration Building.

The following list provides job title, location, pay (biweekly, unless otherwise specified) and closing date to apply.

For faculty positions see the SUS position vacancy announcements.

Reception honors Chris Sizemore, '3 Faces of Eve'

Chris Sizemore, the subject of "The Three Faces of Eve," will be honored at a reception and art exhibit at the University Behavioral Center on Thursday, July 20, from 7 to 9:30 p.m.

Her life with Multiple Personality Disorder was recorded in a best selling book and Academy Award winning movie. She is an accomplished artist and seven of her former 22 personalities were artists whose work depicts many different styles, techniques and visions.

After her recovery in 1977, Sizemore began traveling throughout the country to promote a better understanding of mental illness.

The cost of attending is \$25 per person or \$50 per patron for priority seating. All proceeds will benefit the Mental Health Association of Central Florida.

NEXT ISSUE

The next issue of The UCF Report will be on Wednesday, July 26.

The deadline for submitting copy for that issue will be Thursday, July 20.

The UCF Report

The UCF Report is published biweekly by the Department of Public Affairs, Division of University Relations, University of Central Florida, P.O. Box 25,000, Orlando, FL 32816, (407) 275-2504, in conformity with state laws, at a cost of 27.2 cents per copy. Publication of announcements and official memoranda about University policy and procedures in The UCF Report constitutes official notice to faculty and staff.

Don Rider, Editor
David Bittie, Photographer
Irene LeBlanc, Laura Brannan, Typesetters

On exhibit

Chang Lee, special collections librarian, has obtained a collection of 30 paintings by a Chinese artist that will hang in the lobby of UCF's Library through the month of July. The artist is Zhen Gu Yu, who has been at the Epcot Center China Pavilion, promoting cultural exchange.

Staff Council elects Debbie Goff

The Staff Council this week chose Debbie Goff, staff assistant at the Institute for Simulation and Training, for president 1989-90. She will be installed at Friday night's awards banquet along with three others elected at Tuesday's meeting.

John Stutesman, groundskeeper at Physical Plant, will be the vice president.

Mike Smith, senior clerk in Records, was elected secretary, and Arlene Rasy, computer systems analyst supervisor, Computer Services, was chosen for treasurer.

The council has undergone some major changes, including title changes for officers. Until the revised charter took effect July 1 the presiding officer had the title of "chair" and the second office was called "vice chair." The secretary-treasurer's duties were combined, but will now be separate.

Another major change was revising the

council's year to begin July 1, instead of Jan. 1. The annual awards banquet was moved from spring to July, a change praised by Mark Roberts, University personnel director and advisor to the Council.

Chase dig story to be told on 24

The archaeological research of a UCF husband-wife team will be shown on public television Channel 24, the evening of Sunday, July 23.

"Caracol: The Lost Maya City" is the story told because of years of digging at the site by Arlen and Diane Chase, and the teams of researchers they led. The one hour show airs at 7 p.m.

The Chases are on faculty of the Sociology and Anthropology Department.

Classified

This is a free service to fulltime UCF employees.

Ad forms are available at the UCF Report office, ADM 395E. A completed form is needed each time an ad runs. Deadline is Thursday before the Wednesday publication day.

FOR SALE

Nicely wooded 75'X150' corner lot, located in good neighborhood in Chuluota--\$16,000, negotiable. Contact Mr. Pipkin, Coldwell Bankers, 331-8803.

Townhouse, 2707 Hunt Club Lane, Fox Hunt, ceiling fans, fence, new rugs, new paint. 275-0402 or 644-2156.

House, 3br, 2ba, patio home, Villages of Suncrest, mile west of UCF, cathedral ceiling in living-dining area, 2-car garage, large eat-in kitchen, screened patio, ceiling fans, verticals, mini blinds--\$79,000, assumable 9.5%, available immediately. Will rent \$675/Mo. Sheryl x2357.

Organ, 2 keyboard-\$50. 277-7697.

Condo in Tuskawilla, 2 br, 1.5 ba, paddle fans, microwave, washer-dryer, dishwasher, refrigerator, 1,150 sq ft, townhouse--\$49,800. Leave message at 365-1768.

Roll top desk, solid oak, 42"X78"--\$300. Hutch, solid oak, 78" high, 30" wide--\$149. Shelley 671-1268.

Camcorder, Hitachi (fully automatic) latest model, attachments inc., originally \$1,200--asking \$900. Call 275-3492 or x2224.

VW Squareback, 1968, one owner, very well maintained since new. 645-5763.

Trailer, 14X64', 3br, 2ba, stove, refrig, dishwasher, washer, dryer, in trailer park on Goldenrod Rd., mtg. assumable w/\$1500 equity paymt, available now. Margaret x2942.

FOR RENT

Room in new house, 1.5 miles from UCF. \$350 per month includes utilities. 679-5012.

WANTED

2 loveseats, in good condition, upholstered, printed or striped preferred. M. E. Smith x2314.

BABYSITTING

Grandma will babysit, days, my home, Monday thru Friday, prefer toddler to preschooler. BJ 657-6150.

Walkway paving partly for looks, mostly for safety

Pedestrians, joggers and cyclists will get a better deal as a result of paving taking place this summer. The work has safety and convenience as first consideration, with esthetics and greater durability part of the consideration.

The sidewalks that have been broken up and removed were replaced primarily to make them safer, Mike Spinnato, engineer in charge of campus roads and walks, said. The work is a continuous upgrading of walks that were broken or settled so that an unwary walker might have stumbled, he said.

About 10,000 square feet of walks in the most traveled part of the campus were replaced within the \$30,000 budget. The old walks were four inches thick and the replacements are reinforced to six inches to handle service trucks that make deliveries to buildings by way of the walks, Spinnato noted.

Libra Drive has been closed to through traffic between the water tower and the Central Florida Research Park for resurfacing and the adding of bike paths on both side of the road. This \$61,500 project should be finished in another week, weather permitting, he added.

OFFICIAL To Spotlight the UCF BALLOT Employee of the Month

I nominate _____
to be **UCF Employee of the Month** (Nominee must have been a University Support Personnel System employee for at least one year). Any employee, including faculty and A&P, may nominate a candidate on basis of job performance, dependability, attitude, etc. A name submitted remains in the pool of eligible candidates until the end of the calendar year.

Reasons for your choice _____

Signed: _____

Cut out ballot and return to Irene LeBlanc, Public Affairs, AD395J.
